DEMOCRACY AND JOURNALISM.

During the lurid and ludicrous reign of the Democratic party, the press was more of an object of dislike than anything else to the powers at Washington. The Postal department was managed by a man of no practical ideas whatever, and the Postmaster General issued an order having for its object the discouragement of the practice by trainmen of carrying special newspaper correspondence and other matter in other than mail trains.

This order was especially severe on small country newspapers who depended a good deal for their news upon trainmen who were accommodating enough to carry mail at hours when the Postal service did not. The new Administration has rescinded the order in the interests of the press.

It is said at the Department that there are a very large number of small towns throughout the country which have meager telegraphic facilities. In many of these villages the post and telegraph offices close early, and to prohibit trainmen from carrying to a neighboring town or city small packages containing possible information of the highest general importance, is regarded unwise and unjust.

The newspapers of the country, it is maintained, should receive every possible facility for obtaining and disseminating the news of the day, and to this end trainmen will be encouraged to lend their aid.

The press of the United States ought to remember with gratitude the contrasting attitudes of the two Administrations on this question.

To the Democracy the existence of a newspaper is a menace. It is a shining lump of intelligence, and the Democracy want no such lights at the cross roads if they can avoid it.

NEVADA'S SALVATION.

Lovelocks is in ecstasy over a discovery made by one of its leading cattlemen, Joe Marzen, whose stamina and foresight promise to have developed, for the good of that neighborhood, a wonderful change. The winter was exceptionally dry and the ranchers of Lovelocks, in common with Mr. Marzen, were looking forward to the parching of their lands by the summer sun, when cattle would suffer for want of provender and water; when the valley would be destitute of grass, and the Humboldt dry. To avoid such a disaster as would naturally follow, the only way out of the quandry was to obtain water by artesian wells. The venture was not enticing, with considerable expense attached, and predictions against the success of the effort.

While others dolefully pined over their ordeal, Marzen set to work on his ranch, two miles out of town, to dig a trench 10 feet wide and 30 feet long to the clay stratum, uncovered 18 feet below surface ground, and, with an auger, penetrated this formation (6 feet through) to one of sand. Immediately a tremendous stream of water gushed forth of sufficient force to rise through pipe to four feet above the meadow land.

This achievement dictated the excavating of a larger basin and the entrance of more wells to the sand formation, so the owner opened a trench 30 feet wide and 100 feet long, supplied by six wells.

D. Cozzens, who was back from Lovelocks Monday, after an inspection of the wells, is astonished at the wonderful volume of water discharged. He states that the trench has been timbered so as to form a complete reservoir. A centrifugal pump, run by a thrashing engine, employed to throw the water out of the reservoir, raises enough water to irrigate all the proprietor's land.

Farmers, far and near, have, within the past two weeks, flocked to the wells to admire the signaled success of a progressive man's pluck, and all unite in declaring it to be the greatest event of the locality.—Central Nevada.

TRIUMPH is a beautiful bay; stands 15.3 and weighs over 1,200 and is the finest looking a man ever saw. He took the first premium for 3 year-old stallions at the State Fair of 1888. TRIUMPH will make the Season the same as Gibraltar and Alpha. Terms, \$20 for the season; \$30 to insure.

PEDIGREE.

Triumph by Prompter, Prompter by Wilson's Blue Bull, the sire of more horses with records from 2 15 to 2 30 than any horse that ever lived. McL. E. Clement, Secretary of the Missouri Trotting and Racing Horse Breeder Association in writing to Dr. Hicks, of Sacramento, owner of Prompter, says that he would rather breed to Prompter than any Stallion that is alive to-day. Triumph's dam is the celebrated St. Clair mare, Lady Brighton, owned by Mr. M. Toomy of Sacramento. His dam is now over 20 years old and can trot in 2 40 any day in the week. Senator Stanford in his catalogue of 1887 was breeding to 26 St. Clair brood mares and the most of his horses that have made the best records for 2-3 and year-olds are out of St. Clair mares, namely: Fred Crocker dam by St. Clair, two year old record 2 25½; Bonito, dam by St. Clair, 3 year old record 2 24½, 3 year old record 2 18½; Manzanita, dam by St. Clair, 4 year old record 2 16 fastest on record.

I have got 400 acres of pasture land enclosed and mares sent in care of me on the cars will be taken to the Ranch and bred and good care taken of them. Pasture, Two dollars per month, or will keep them up for \$20 per month as I have over 100 fine box stalls. Accidents and escapes at owner's risk. There is a fine race track on the Ranch and I will take horses to train or colts to break at reasonable rates. I also have a few Gibraltar colts to sell. If you want a good colt I can sell you one cheap. Positively no shooting allowed on the premises.
